WHY E4 CHESS ACADEMY

Premium training, *without the premium excuse.*

Excellence shouldn't come with a hidden cost. Every child deserves world-class coaching, wherever they are.

**Expert coach faculty**

Experienced coaches with strong competitive backgrounds, bringing tournament-level insight directly to your child's screen.

**AI game analysis**

After every session, detailed analysis with personalised improvement insights drawn from your child's own games.

**Certified curriculum**

A structured, level-wise syllabus built for progressive mastery — from first moves to advanced tournament openings.

**Personalised attention**

Small batches and one-on-one sessions so every child is seen, heard, and guided at their own pace.

**Monthly tournaments**

Compete with peers around the world every month. Real game pressure, real growth, real trophies.

**Unbeatable value**

Premium curriculum at genuinely competitive pricing. No compromise on quality, no markup on excellence.

COURSE LEVELS

Three levels. *One path.*

A child can join at any level. Each programme runs six months, and each one ends where the next begins.

Beginner — Pawn to Player

First moves to a full, legal, confident game

Intermediate — Knight's Journey

Tactics, endgames and a real opening repertoire

Advanced — Champion's Path

Rated play, deep preparation, titled coaches

△ BEGINNER · AGES 4+

Pawn to Player

- Six-month structured syllabus
- Monthly parent progress reports
- Fun mini-tournaments every week
- Small batches and one-on-one time
- AI game analysis after every session
- Monthly global tournaments

MONTH 1

Meeting the board

- The board, squares and co-ordinates
- Movement of rook, bishop and queen
- Movement of king, knight and pawn
- Relative value of the pieces
- Check, and how to defend a check
- [Progress review 1](#)

MONTH 4

First tactics

- The fork, or double attack
- The pin — simple
- The skewer
- Checkmate in two moves
- Fool's Mate, Scholar's Mate and why they fail
- [Progress review 4](#)

MONTH 2

Ending the game

- Checkmate and how it differs from stalemate
- Pawn promotion
- Checkmate in one — easy
- Checkmate in one — medium and difficult
- Back-rank ideas
- [Progress review 2](#)

MONTH 5

Opening principles

- Controlling the centre with e4 and d4
- Developing pieces in the right order
- King safety and early castling
- The most common opening mistakes
- King and queen against king
- [Progress review 5](#)

MONTH 3

The complete rules

- Castling, and when it is not allowed
- En passant
- Chess notation — reading and writing moves
- Types of draw, touch-move and illegal moves
- King and two rooks against king
- [Progress review 3](#)

MONTH 6

Playing a full game

- The three phases of a chess game
- Discovered attack and discovered check
- Simple king and pawn endings
- Analysing your own finished games
- Preparing for a first real tournament
- [Progress review 6](#)

INTERMEDIATE

Knight's Journey

- Six-month structured syllabus
- FIDE-rated tournament preparation
- Bi-weekly one-on-one coaching
- Monthly global tournaments
- AI game analysis after every session
- Progress reports for parents

MONTH 1

Tactical depth

- Positional and material advantage
- Deflection — easy
- Deflection — difficult
- Decoying and removing the defender
- The double check
- [Progress review 7](#)

MONTH 4

Pawn structure and plans

- Isolated, doubled and backward pawns
- Passed pawns and how to create one
- Outposts and strong squares
- The good bishop and the bad bishop
- Forming a plan from the structure
- [Progress review 10](#)

MONTH 2

Mating patterns

- The smothered mate
- Anastasia's mate and the Arabian mate
- Boden's mate and the hook mate
- Activation of the pieces
- Mate in three moves
- [Progress review 8](#)

MONTH 5

An opening repertoire

- The Ruy López — main ideas
- The Sicilian Defence — structures and plans
- Adopting a fixed opening for White
- Adopting a fixed opening for Black
- Transpositions and move order
- [Progress review 11](#)

MONTH 3

King and pawn endings

- Opposition and distant opposition
- King and two pawns against king
- The rule of the square
- Zugzwang
- Queen against a pawn on the seventh
- [Progress review 9](#)

MONTH 6

Competitive play

- Rook endings — the Lucena position
- Rook endings — the Philidor position
- The two bishops checkmate
- Clock management and tournament nerves
- Full-length practice games under time
- [Progress review 12](#)

ADVANCED

Champion's Path

- Six-month structured syllabus
- National and international rating development
- Weekly sessions with titled coaches
- Monthly global tournaments
- AI game analysis after every session
- Psychological preparation for competition

MONTH 1

Calculation

- Candidate moves and calculation trees
- Visualisation without moving the pieces
- Counter-threats
- Perpetual check and the desperado
- The windmill
- [Progress review 13](#)

MONTH 4

Opening science

- Building a repertoire that suits your style
- Preparation and novelties
- Opening traps, and how to avoid them
- Transposition as a weapon
- Working with a game database
- [Progress review 16](#)

MONTH 2

Attacking the king

- Opposite-side castling and the pawn storm
- Attacking with same-side castling
- The Greek gift sacrifice
- The exchange sacrifice
- Attacking the hook pawn
- [Progress review 14](#)

MONTH 5

Endgame theory

- Practical rook endings in depth
- Bishop against knight
- Opposite-coloured bishops
- Fortresses and how to build one
- The pawn breakthrough and triangulation
- [Progress review 17](#)

MONTH 3

Strategic mastery

- The principle of two weaknesses
- Static against dynamic play
- Prophylaxis — stopping their plan first
- The art of exchanging pieces
- The positional sacrifice
- [Progress review 15](#)

MONTH 6

Tournament performance

- Grandmaster game studies
- Annotating your own tournament games
- Psychological preparation and resilience
- Planning a rating campaign
- Simulated rated events
- [Progress review 18](#)

AT EVERY LEVEL

What every child gets, *whichever level they join.*

The syllabus changes with the level. Everything below does not.

AI game analysis

After every session, detailed analysis of your child's own games with personalised improvement insights — not generic homework.

Monthly tournaments

Competition against peers around the world, every month. Real game pressure is the only thing that builds real nerve.

Progress reporting

Written progress reports for parents, so you can see what changed and what is being worked on next.

Small batches

Batch sizes kept small, with one-on-one time built in, so no child is coached past.

Certified coaches

Every coach completes the E4 Coaching Certification covering child psychology, lesson planning and performance tracking.

Learn from anywhere

Sessions run online on our platform or over Zoom, at times that work across time zones.

OUR STUDENTS

Real students. *Real trophies.*

Not testimonials about how nice the lessons were — results, from children who started with us.

UNITED STATES

Inter-school champion

SINGAPORE

3rd, regional Under-10 open

GERMANY

**Winning consistently across
London**

UNITED KINGDOM

**Runner-up, junior club
championship**

JAKARTA, INDONESIA

IN PARENTS' WORDS

What families say *after the trophies.*

Across four continents, parents describe the same thing: a child who wants to come back to the board.

Inter-school champion, Singapore

“Kai won the inter-school chess championship for his age group. He started from nothing — watching his confidence grow at the board has been a joy.”

PARENT OF KAI · SINGAPORE

FIDE rating up 200+ points

“The structured curriculum and titled coaches made all the difference. We couldn't be happier.”

PARENT OF ARJUN · INDIA

3rd, regional Under-10 open

“Julian placed 3rd in his regional Under-10 open after just four months. The coaches explain everything so clearly — he comes to every session excited.”

PARENT OF JULIAN · GERMANY

First school tournament win

“Lucas won his school's tournament this year. Starting from absolute zero, E4's step-by-step method made the learning curve feel completely natural.”

PARENT OF LUCAS · FRANCE

HOW IT STARTS

Four steps from *curious to coached.*

No credit card and no commitment to begin — the first session is genuinely free.

01**Book a free demo**

Fill in a 30-second form. We reach out within 24 hours to confirm your slot.

02**Assessment session**

A 30-minute session where a coach meets your child and reads their current level.

03**Custom plan**

We recommend the right level and pace, based on what we actually saw at the board.

04**Begin training**

Regular sessions, monthly tournaments, and progress reports you can follow.

OUR COACHING STANDARD

Who your child *actually learns from.*

The coach in front of your child is the entire product. We treat that seriously.

Quality-first coaching

Every coach has strong competitive chess experience and training in child-focused teaching, so your child learns from someone who genuinely understands the game.

Certified trainers

All coaches complete the E4 Coaching Certification — a rigorous programme covering child psychology, structured lesson planning, and performance tracking.

Globally experienced

Our faculty has coached students across 15+ countries — from India and the UAE to the UK and Singapore — bringing global competitive insight to every session.

YOUR MOVE

Book your child's *free demo today.*

One session. Zero risk. A skill that lasts a lifetime.
